We Extend Greeting by the Grace of Allah!

Welcome

Come with your Red Crowns of Araby and partake of the good and precious things we have prepared for you. We have gazed long and most earnestly across the plains—looked down from our mountain peaks, that we might gain sight of your caravans, wending westward—seaward—Pacificward—where the soft winds may kiss your cheeks and fill you with the joy of a real homecoming.

We shall be glad to grasp your hands—to bridge over the distances whence you came with a fond desire to see us and this favored spot the world knows as California!

Here we meet as brothers of the one Faith. As you recline upon the divans within our Temples, we seek to have you forget the far away places, where you quaffed the cup of joy of the yesterdays, and touch with us the Sacred Stone, as it were, to pledge us by that you love best, that you will make yourselves at home.

We are hoping that no accident of plan or purpose may mar your visit here. May your dreams be of us and our Golden West as you journey eastward again, and may the hour of your return to California be not far distant.

WE SHALL NOT FORGET YOU.

Yours in the Faith,

IRA W. COBURN,
Potentate.

CHINATOWN

Monday, June 12th, to Saturday, June 17th, and continuing all week—all day and evening.

Chinatown has prepared a royal welcome for visiting Shriners and their friends and is ready to receive the Big Caravan in Oriental splendor.

An arch of welcome, heralding the official entrance into Chinatown, has been erected at Grant avenue and Pine street. There complete information regarding Chinatown tours and the points of interest will be found. A large detail of specially picked police will be stationed there to guide the visitor on a never-to-be-forgotten tour through this Oriental wonderland. Seasoned Chinatown guides may also be engaged to conduct special parties, in case such service is desired.

Here are a few of the most interesting features of this remarkable district which will delight the visiting Nobles and their friends—Japanese and Chinese stores and bazaars, curbstone stalls filled with Oriental masterpieces in silver, bronze, enamel, lacquer, teak, rosewood, porcelain, carved ivory, jade, sumptuously embroidered silks, restaurants and tea gardens which are unique in America; joss houses, with their curious contrasts of age-old worship and an occasional medieval mask, sword or jar near the elaborate altars. The Chinese missions afford many features of serious interest. But everywhere, from Ross alley, world-famed as a thriving cluster of gambling dens, to the very edge of Chinatown, one finds quaint and beautiful gilded wood carvings, enameled urns, paper flower work, banners and standards carried in processions at the public fetes.

Your trip to Chinatown, no matter how many famous districts you have seen, will be an experience you may well remember and cherish for the rest of your life.

Decorations for the Imperial Council Session, A. A. O. N. M. S.

In decorating our streets, public buildings and parks for this memorable session, our artists have departed from the conventional and had refuge in the deep mines of Orientalism, rich in color-blends, as well as remarkable for weird symbolism so enchanting, so mysterious, yet satisfying. Leading architects have given us of their best endeavor in designing the Civic Center ensemble, and have taken advantage of "Shrine Initiation" no doubt to blend in a glorious and harmonious creation, a *"home product,"* rivaling the Orient itself in truthful delineation and clear detail.

The street decoration of our "new dress" is not only artfully original but exceedingly harmonious and is beyond question unrivaled in varied effect.

In consequence of these aids to the work of the general committee, *San Francisco has been set down on the Great Desert.* We can here feel the grit of the sands beneath our Arab feet and hear from yonder minaret a call to prayer as we become en-rapport with the spirit of the Arab dream. Let us now proceed to guide a visitor:

After entering our harbor through the Golden Gate, our guest will observe a huge Shrine emblem on the tower that surmounts the Ferry building. On the Embarcadero (the wide thoroughfare in front of all the ocean piers or steamship landings) there are two large minarets. Shrine color schemes will predominate.

"The Path of Gold" leads uptown from the Ferry building. This was Market street once. The "Path" is marked on either side by rows and clusters of electroliers shaded with Shrine-colored transparencies in *red, green and gold.* These will radiate on the entire length of the "Path." Between them are hung Oriental rugs, decorated Shrine-way. The Civic Center is the real center for decorative climaxes.

Follow on.

Along Fulton street (that was), between Hyde and Leavenworth, are to be seen twenty camels kneeling on pedestals flanking the entrance-way to a replica of an oasis in Arabia. This is in Civic Center Park. This faithful reproduction of Araby certainly bears all the "hallmarks" of the Orient, showing great obelisks, Far East silken tents, canopied recesses, flower stands and pavilions in appropriate locations.

By the way—let us not forget to announce that the designer who molded "The End of the Trail" statue at our Panama-Pacific Exposition, is the sculptor of these life-type camels just mentioned.

Our magnificent City Hall has been transformed into a mammoth "Oriental throne," impressive in

Decorations for the Imperial Council Session, A. A. O. N. M. S.

the scope and magnificence of the treatment showered upon it.

Every available point along the entire line of march has indeed been characteristically featured.

Captive balloons will be seen floating about City Hall Park of evenings and Oriental lighting effects will illuminate the many minarets and all outstanding points of vantage *"where light can make life."*

The dome of the City Hall will resemble the tower of jewels we admired so much at the Exposition.

Union Square has not escaped the enlivening touch of the Oriental magician.

Flower Features

Golden Gate Park has arranged large floral emblems in front of the conservatory, also in Union Square and elsewhere. Dwarf red and yellow nasturtium seeds and a magnificent collection of all of our native California wild flower seeds have been sown throughout the panhandle section in Golden Gate Park. These will be in bloom at the time of our convention and should prove of great interest to our visitors.

Foster & Kleiser have placed floral emblems at a number of their sign boards throughout the city, and have planted dwarf red and yellow nasturtium seed at their sign boards.

The Associated Oil Company has planted this same flower at all its oil stations and a large Shrine emblem in flowers at the station, corner of Mason and Post streets. The Standard Oil Company has planted dwarf red and yellow nasturtiums at all its stations in San Francisco, and through the medium of the San Francisco "Chronicle," 2000 packages of seeds have been distributed for planting in front yards and window boxes.

The Board of Works of San Francisco has cooperated in every way possible. Our streets are cleaned and in good condition, and the driveway at the Cliff House, connecting up the Great Highway and Geary street, will be completed in time for the convention.

Baggage

The baggage committee of the San Francisco 1922 Shrine committee has made arrangements with the Union Transfer Company and the Red Line Transfer Company, San Francisco; the Peoples Express and the United Transfer companies of Oakland, Calif., to handle Shrine members' baggage during the coming convention at a special rate of 50c for trunks and large packages, also a special rate of 25c for hand grips and small packages. (Each way.)

Offices or booths at the Ferry building (foot of Market street), Southern Pacific Company depot (Third and Townsend streets) and in the Civic Auditorium.

Official baggage will be handled gratis by the Draymen's Association.

Hotel and Housing Committee

Visiting Nobles will be taken care of by the 1922 Shrine Hotel and Housing Committee in conjunction with the citizens' hotel committee.

If there is any misunderstanding as to your assignments or if you have not as yet made reservations for rooms, the headquarters of this committee are located at 210 Crocker building, corner Market, Post and Montgomery streets, opposite the Palace hotel, telephone Garfield 6000, where you will receive immediate attention.
